ÛE® GRAPE DISTILLATE
CRU MONOVITIGNO® PICOLIT

1984_2024

NOVEMBER 27, 1984

Benito and Giannola Nonino mark a new
turning point, they distil the whole grape and
create the **Grape Distillate, ÛE®** which they
dedicate to their daughters Cristina, Antonella
and Elisabetta. The Ministerial Authorization
for the production of the Grape Distillate (D.M.
20.10.84) is granted following a specific request
by the Noninos.

DECEMBER 1, 1984

To highlight the preciousness of this new
Distillate, the Noninos ask Venini, Master
Glassmaker in Murano, to flying hand blow a
bottle with inserted a murrina depicting the
cluster of grapes.

This is the beginning of the precious

**NONINO COLLECTION
ÛE® GRAPE DISTILLATE
CRU MONOVITIGNO® PICOLIT**

which, year by year, will be preserved in flying
hand blown bottles made by Venini, Baccarat
and Riedel.

Among the collectors, scattered all over
the world, we would like to mention the
unforgettable Marcello Mastroianni, Claudio
Abbado, V.S. Naipaul, Claude Levi-Strauss,

in Murano and the greatest European traditions
of Baccarat and Riedel Crystal.

Unique example in the world of the excellence
of Made in Italy!

November 27, 1984
Giannola and Benito Nonino distil grape skins, pulp and juice in a single operation. They create **UE® Grape Distillate**, the new distillate that contains the elegance of wine distillate and the temper of grappa. To obtain **UE® - Grape Distillate** they studied new fermentation and distillation procedures, using special stills renewed by Benito Nonino.

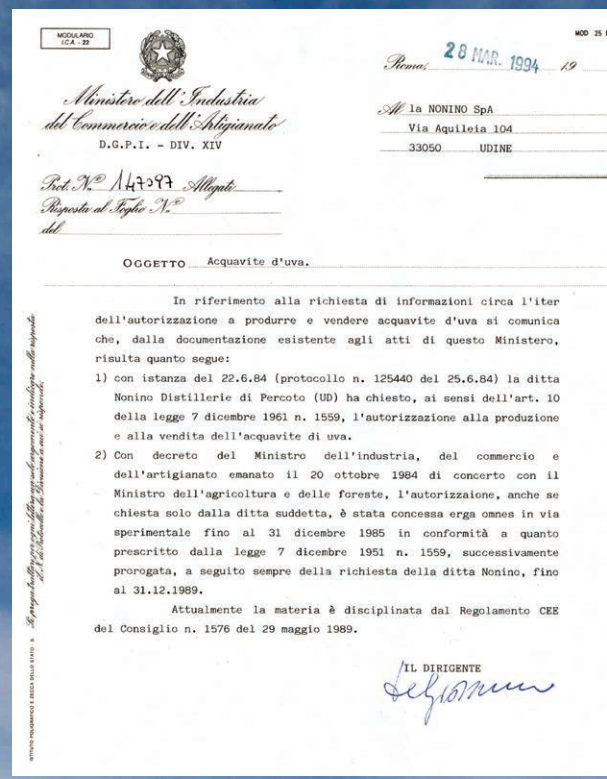

The Ministerial Authorization for the production of the Grape Distillate (D.M. 20.10.84) is granted following a specific request by the Noninos, who had to fight against all sorts of bureaucratic and category obstacles.

UE means *Grapes* in the language of Friuli

SPRIT BRAND / DISTILLER OF THE YEAR 2019
 by Wine Enthusiast

The Ministerial Authorization for the production of the Grape Distillate (D.M. 20.10.84) is granted following a specific request by the Noninos.

“...Through uncounted decades, grappa was little more than a cheap, portable form of central heating for peasants in northern Italy... Fancier Italians, and most foreigners, disdained it. But that was before the Noninos of Percoto came to prominence...”

R.W. APPLE JR., *The New York Times*
DECEMBER 31, 1997

1897 Orazio Nonino, the family founder, establishes in Ronchi di Percoto the premises of his distillery which, until then, had existed only as an itinerant still assembled on wheels.

DECEMBER 1, 1973 Benito and Giannola Nonino, respecting the tradition, revolutionize the way of producing and introducing Grappa in Italy and throughout the world. **They create the single varietal grappa, Monovitigno® Nonino**, distilling the pomace of Picolit grapes separately, and so turn Grappa from Cinderella into a Queen of distillates!

NOVEMBER 29, 1975 they establish the **Nonino Risit d’Aur Prize** (gold vine shoot) with the aim of stimulating, awarding and having officially recognized the ancient autochthonous Friulian vine varieties that are dying out and to obtain the authorization of the European Community to replant Schioppettino, Pignolo and Tazzelenghe, later joined by Ribolla Gialla, in order to preserve the biodiversity of the territory. In 1977 it is joined by the Nonino Literary Prize and since 1984 it will be completed with the International Section. The Nonino Prize has anticipated the Nobel choices six times.

NOVEMBER 27, 1984 The Noninos mark a new turning point, they distil the whole grape and **create the Grape Distillate, UE®**. The Ministerial Authorization for the production of the Grape Distillate (D.M. 20.10.84) is granted following a specific request by the Noninos.

DECEMBER 4, 2003 The President of the Italian Republic Carlo Azeglio Ciampi awards Giannola and Benito Nonino the prestigious **Leonardo Prize for Italian Quality** for “the absolute Quality, Research and Innovation”.

JANUARY 12, 2017 The **Nonino Revolution ‘from Cinderella to a market Queen’** is selected as a case study by one of the most influential academic magazines in the world: **the London School of Economics (LSE) Business Review**.

JANUARY 27, 2020 San Francisco **Nonino ‘Best Distillery in the World’ elected Spirit Brand / Distiller of the Year 2019** by **Wine Enthusiast**, the first Italian distillery and the only Grappa to receive the prestigious prize in Twenty years of Editions, the most important international prize in the world in the sector of wine and spirits.

2021-2022-2023 The Noninos carry on the evolution of **Grappa – Italian Cocktail Spirit**, protagonist of fabulous Cocktails, Ling Drinks and Aperitifs. In June 2021 **L’Aperitivo Nonino Botanical Drink** is elected **Aperitif of the Year international** at the International Spirits Award, prize reconfirmed also in the 2022 and 2023 editions.

“The wide collection of Nonino cocktails is (...) a perfect example of how a company so rooted in a tradition of purity can preserve its identity making experiments with its products”
Wallpaper* July 2015

MAY 10, 2024 **Cristina, Antonella and Elisabetta Nonino** are awarded the prestigious **XV GUIDO CARLI PRIZE for entrepreneurial merit**, which is awarded to personalities who have distinguished themselves for their social commitment, the successes in the entrepreneurial field, as well as for bringing prestige to the Italian talent and genius in the world.

NONINO

SPIRIT BRAND / DISTILLER OF THE YEAR 2019
BY WINE ENTHUSIAST

DRINK RESPONSIBLY

The **NONINO DISTILLERIES**, unique in the world, consist of Five Artisanal Distilleries, each with 12 copper batch steam stills for the production of the inimitable Nonino Distillates, respecting the tradition and the rhythms of craftsmanship. Pomace and grapes are destalked and fermented under vacuum at controlled temperature in stainless steel tanks and distilled immediately after fermentation, at the same time of the harvest.

BATCH DISTILLATION takes place very slowly, with head and tail cutting, to allow volatile components, responsible for the fragrances, a proper evaporation and consequent condensation preserving the precious organoleptic characteristics of the vine variety chosen.

AGEING CELLARS he 7 Ageing Warehouses (M.I.G.) of the Nonino Distilleries, under seal and permanent surveillance by the Customs and Monopoly Agency, house small casks made of different kinds of wood. Today they boast 2620 in Nevers, Limousin, Grésigne and ex-Sherry oak, Acacia, Wild Cherry, Pear and Ash wood, which preserve the precious Nonino Distillates, Grappa and **ÛE**® and Amaro Nonino.

ALLA RICERCA DELLO "SPIRITO"

Come to discover the Nonino Art of distillation, 100% with artisanal method!

Borgo Nonino, immersed in the Friulian countryside, in Persereano, is a complex consisting of 7 rural buildings, the oldest of which date back to the age of Napoleon and are used as aging cellars for Grappa and Amaro under seal.

It is situated 500 meters far from the Nonino distilleries, on the edge of 10 hectares of wood realized by Benito with the essences of the Friulian wood and runs along the Alpe Adria Cycle Route which reaches the sea.
